

Semifinalist – Natural Gas Distribution

Enviro Power LLC

Demonstration of natural gas based SmartWatt Boiler 6.0 micro-combined heat and power (mCHP) system for residential applications

Heat and Power Generation

Semifinalist – Natural Gas Distribution

ThermoLift, Inc.

Demonstration of advanced natural gas driven
heat pump and air conditioner

Heat and Power Generation

Semifinalist – Natural Gas Distribution

M. A. Procense Inc.

Prototype Development and Demonstration for
CO₂ Capture from Natural Gas Fueled Power and
Utility Generation System

Carbon Capture

Semifinalist – Natural Gas Distribution

Innovative Fuel Systems Ltd.

Development and Demonstration of advanced
Dual Fuel System for Class 8 trucks

(Diesel fuel displacement with natural gas)

Transportation

Semifinalist – Natural Gas Distribution

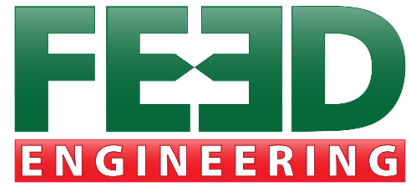

Hiller Truck Tech Inc.

Optimization and Demonstration of Efficient Dual Fuel Technology on Heavy Duty Vehicles

(Diesel fuel displacement with natural gas)

Transportation

Semifinalist – Natural Gas Distribution

FEED Engineering Inc.

Demonstration of a highly efficient waste heat recovery system for natural gas power generators

Energy Efficiency
